If you're a mom in today's day and age, you've no doubt heard about The Wonder Weeks, written by a husband-and-wife team, outlining the 10 "wonder weeks" (which often cause sleep regressions), that all babies go through in the first 20 months of life. The book outlines when and why each "wonder week" happens; it also offers parents insights into how to help their babies navigate each wonder week, and turn it into a leap forward for baby.

If she was 4 weeks early, it will occur 4 weeks later." Sounds like they still want you to use the EDD, but if your LO is matching up with the descriptions in a different way I'd say use your own observations. After all they say in the book that this is the average time for a leap to happen so maybe your LO is just doing it earlier.
